STROKE

{ **Learn why FAST is good** }

Stroke is the third leading cause of death in the United States and a leading cause of serious long-term disability.

This seminar will help you to identify risk factors associated with stroke. Learn about the latest technology offered at Good Shepherd in the treatment, prevention and rehabilitation of stroke.

- Meet the medical stroke team
- Learn to detect the early signs and symptoms
- Be updated on the latest medical advancements
- Hear a survivor's story
- Connect with patients through Spiritual Care

July 16*
